C. no. 038991

PREFACE.

This catalogue of photo-negatives in my keeping at Simla has been compiled by Maulvi Muhammad Hamid, B.A., my Excavation Assistant. The collection comprises two series of negatives, namely, those which were formerly preserved in the Indian Museum at Calcutta and those which were prepared in my own office between April 1st 1902 and March 31st 1918, but for the convenience of the public I have eliminated from both series of negatives those which for one reason or another are too defective to yield satisfactory prints.

Besides these negatives in Simla the Archaeological Department possesses eight other collections of negatives preserved at the offices of the Archaeological Superintendents at Agra, Bankipore, Bombay, Calcutta, Lahore, Madras, Peshawar and Rangoon, the catalogues of which are obtainable from the Local Government Presses.

Orders for prints from the negatives in the office of the Director General can be booked at any time of the year, but prints can be supplied only between the months of May and October, when the official photographers are at head-quarters. When prints are ordered the page and serial and reference numbers of each in the catalogue should be stated. The prices of silver or bromide prints (post free) are at present as follows :—

					Silver.			Bromide.			
					<i>R</i>	<i>a.</i>	<i>p.</i>	<i>R</i>	<i>a.</i>	<i>p.</i>	
12" × 10"	prints	1	4	0	2	0	0
